INDEX TO VOLUME XXVI.

A

Acid Electric Steel Practice, Analysis Control in, 217.
Acid-Resisting Irons, Some Casting Problems of, 466.
A.F.A. Papers, How Produced, 539.
Age of Semi-Steel, 151.
Air Gun, Jenkins, 198.
Alloy Steels, Electric, 405.
Alpax, a New Aluminium Alloy, 304.
Aluminium Alloy Pistons, 248.
Aluminium for Rolling Mill Sheet, Melting, 80.
American Foundrymen's Association, 376.
American Foundry Technical Association, New, 434.
American Methods of Manufacture of Malleable Iron Castings and Some Data in Connection with the Finished Product, 50, 75, 102, 122, 142, 165.
American Methods of Sampling Pig-Iron, 515.
American Specifications for Semi-Steel Castings, 157.
American Specifications for Steel Castings, The Trend of, 302.
American *versus* British Cast Iron, 223.
American *versus* British Grey Cast Iron, 59.
Analysis of Cupola Slag, 168.
Analysis of Iron and Steel, 411.
Appeal to British Foundry Owners, 335.
Apprenticeship Course in Foundry Practice, I., 44; II., 73; III., 89; IV., 115; V., 132; VI., 153; VII., 179; VIII., 195; IX., 208; X., 233; XI., 259; XII., 276; XIII., 291; XIV., 317; XV., 341; XVI., 361; XVII., 389; XVIII., 389; XVIII., 403; XIX., 429; XX., 441; XXI., 473; XXII., 493; XXIII., 513.
Apprenticeship Courses, 43.
Arbed Group, The, 484.
Association Technique de Fonderie, 298.
Australian Iron and Steel Industry, Position in, 222.
Austrian Iron and Steel Industry, 221.

B

Ball-Races, Casting, 298.
"Ballsok" Bead Insulation, 159.
Barrel Castings, Moulding, 38.
Belgian Foundry Costing, 435.
Belgian Foundry Practice, Some Notes on, 147.
Belts for Pattern Shop Machines, 244.
Bessemer Converters, Importance of Temperature in, 425.
Birmingham Brass Factories, Comparison of, 534.
Birmingham Metallurgical Society, 232, 458, 514.
Blast Volume, 177.
Blow-Holes, 457.
Brasses, High-Tenacity, 376.
Breakdown Repair Job, Quick, 177.
Breaking Metal with Explosives, 158.
Bricks from Blast-Furnace Slag, 284.
British Cast-Iron Research Association, 349, 354, 398, 436, 440, 503, 540.
British Empire Exhibition (1924), 4, 506.
British Industries Fair (1923), 43.
British Iron Ore Resources, 49.
Bronze, Manganese, 83.

C

Canada, Notes from, 290.
Canadian Notes, 278.
Carbon Dioxide Recorders in Controlling Combustion of Powdered Coal, Use of, 159.
Carburisation in the Manufacture of Synthetic Cast Iron, A Study of, 81, 95.
Castings, Large Vertically-Poured, 296.
Castings, Making Electric Steel, 305.
Castings without Feeding Heads, British Opinions on Making, 136.
Cast Iron, Art of Softening, 358.
Cast Iron, Non-Magnetic, 402.
Centrifugal Castings, 360.
Centrifugally Cast Steel, Mt. Conway, 257.
Ceramic Society, 293.
Chelsea Polytechnic, 261.
Chemical Analysis of Cast Iron, Research Work and the, 151.
Classes in Foundry Work at Leicester, 16.
Clutch Mould, Making a Skin-Dried, 465.
Coalbrookdale Bridge, 415.
Coke Requirements of the Iron Trade, 420, 491.
Comparison of Birmingham Brass Factories, 534.
Competitions, Foundry, 503.
Congress, International, Paris, 1923, 240.
Co-operation in Research, 253.
Copper and its Alloys, Iron in, 388.
Copper, Rich Aluminium, Copper Alloys, 258.
Core Stove, Hestia, 375.

Correspondence:—
Appreciation, 2.
Birmingham Conference, 2.
Capital Required for New Steel Foundry, 374.
Certificated Foundrymen, 349.
Foundry Apprenticeship Course, 58.
Foundry Competitions, 82.
Hestia Core Ovens, 398, 431.
Loam Moulding in Liège, 267.
Locomotive Cylinders, 374.
Making Castings Without Feeding Heads, 316.
Mr. Cook's American Exchange Paper, 152.
Manufacture of Locomotive Cylinders, 431.
National Foundry Competitions, 24.
Safety Work in Foundries, 4.
Semi-steel, 18, 202.
Small Runners and Sound Castings, 232.
Steel Borings and Turnings in the Cupola, 58.
Steel Foundry Facing Sand, 374, 398.
Training of Foundrymen, 107.
Visit to France, 398.
Costing for a Small Foundry, 178.
Costs in Iron and Steel Production, 536.
Cupola Melting Tests, with Mixtures Changing During Run, 299.
Cupola, Notes on the Heat Balance of a, 365.
Cupola Practice, 409.
Cupola Practice, Defects in, 67.
Cupola Receivers, 462.
Cupolas, Foundry, 321.
Cupola Slag, Analysis of, 168.
Cylinder, Heads for Vertical Gas Engines, Intermediate, 17.

D

Defects in Brass Tubes, 427.
Defects in Cupola Practice, 67.
De Reaumur (1683-1757), 191.
Development and Manufacture of High-Tenacity Brass and Bronze, 47, 78, 99, 118, 145, 163.
Development of the Manufacture of Steel Castings, Notes on the, 355, 444.
Die Castings and Alloys for Fine Mechanics, 26.
Drying Ovens, Modern Installation of, 175.
Dry Sand Moulding for Small Work, 485, 517.
Duplexing Process, Electric, 436.

E

Electric Alloy Steels, 408.
Electrically-Heated Metal Pattern, 69.
Electric Furnace Developments, 253.
Electric Furnace Melting Costs, 219.
Electric Furnace Operation, 329.
Electric Furnace Prospects, British, 207, 249.
Electric Furnaces and the Foundry, 397.
Electric Rotating-Furnace, "Watson," 366.
Electric Steel Castings, Making, 305.
Electric-Steel, World's Output of, 301.
Electric Tool Steel Plant, Layout for, 507.
Emergency Melting Plant, 219.
Estimation of Minute Percentages of Iron in Foundry Materials, 383.
European *v.* American Moulding Machine Practice, 26, 312.
Eutectics, Structure of, 258.
Exchange Paper, Mr. Cook's American, 109.
Exhibition, British Empire (1924), 4.

F

Feeding-Heads, Making Castings Without, 140.
Ferro-Manganese, 530.
Fettling Shop Speciality, 159.
Foundry Apprenticeship Courses, 1.
Foundry Classes, London, 232.
Foundry Congress, Paris International, 1923, 87.
Foundry Casting, Belgian, 435.
Foundry Cupolas, 321.
Foundry Ladles, 16.
Foundry of Messrs. James & Fredk. Howard, Ltd., Britannia Iron Works, Bedford, 70.
Foundry of Messrs. Thwaites Bros., Steel, 423.
Foundry of the Renault Works, 130.
Foundry Practice, Some Notes on Belgian, 147.
Foundry Prejudice, 373.
Foundry Queries:—
High-Pressure Sand Blasting, 375.
Lead-Casting Proposition, 174.
Stains from Aluminium Castings, 354.
Foundry Refractories, 236
Foundry Runways, Small Overhead, 157.
Foundry Sands and their Practical Application, Some Tests for, 495.
Foundry Technical Associations, 207.
Foundry Trade Technical Society, 224.

INDEX TO VOLUME XXVI.

A

Acid Electric Steel Practice, Analysis Control in, 217.
Acid-Resisting Irons, Some Casting Problems of, 466.
A.F.A. Papers, How Produced, 539.
Age of Semi-Steel, 151.
Air Gun, Jenkins, 198.

Specification for Bull-Head Rails, 24.
Specifications for Semi-Steel Castings, American, 167.
Specifications for Steel Castings, The Trend of American, 302.
Staffordshire Iron and Steel Institute, 86.
Steel Castings, Making Electric, 305.
Steel Foundry of Messrs. Thwaites Brothers, 423.
Steel without Pig-Iron, Making, 261.
Study of the Change in the Grain Size of Silica Sand Through the Constant Addition of Clay, 84.
Sulphur in Cast Iron, 224.
Swedish Iron and Steel Production, 508.
Synthetic Cast Iron in the Electric Furnace, Manufacture of, 475.
Synthetic Cast Iron, Study of Carburisation in the Manufacture of, 81, 95.
Synthetic Pig-Iron on the Pacific Coast, 415.
Systematic Gating, 36.

T

Temperature and Fatigue on Accident Rates, Influence of, 488.
Testing for Green-Bonded Strength, Establishing a Method of, 38.
Testing Malleable Iron, 290.
Tests, New Suggestions for Notched Bar, 117.
Thermal Expansion of Metals, 414.
Training of Foundrymen, 54.
Trunk, Casting in Loam, Moulding a, 15.
Tubes, Defects in Brass, 427.
Turbine Parts, Steam, 192.
Turbine Steam Chest Troubles, 283.

V

Venting, Note on, 232.
Vertically-Poured Castings, Large, 296.

W

Water-Cooled Journal Box, Simplifying Cores for, 162.
Water-Pipes, Cast Iron or Steel, 374.
"Watson" Electric Rotating Furnace, 366.
Weight of Iron Castings, Study of the, 262.
What's Wrong with the Foundryman? 328.
White Iron, Malleabilisation of, 306.
White Metals, 265.
"Working Hours" and the Foundry, 289.
Working Slags, 470.
Works Metallurgist, 419.

X

X-Ray Investigations on Metals, 135.

Z

Zinc Industry of Northern France, 498.
